PUE 5

**Professional
Weighing Terminal**

VERSATILE INDUSTRIAL APPLICATIONS

PUE 5

Reliability in Industrial Conditions Complete Support of Weighing Processes

Comfort of Operation

PUE 5 terminal features a large, modern, high-resolution screen – 15.6 inches or 19 inches (depending on the chosen model). Easy to read menu and clear-cut information arrangement ensure comfort of operation.

Industrial Computer Functionality

PUE 5 combines functionality of an advanced weighing terminal and typical features of a Windows based industrial computer. With Quad Core 2GHz processor, 4GB RAM and fast SSD the terminal processes your data quickly even when complex applications are operated.

Reliability and Resistance to Adverse Working Conditions

PUE 5 terminal is equipped with a hermetic stainless steel housing of protection class IP 65. Such solution allows the user to operate the terminal in harsh industrial conditions: high humidity and dustiness. It also guarantees both resistance to mechanical damage and good readability. Absolute precision of touch detection enables the user to wear gloves while operating the terminal.

Industrial Applications of PUE 5.

PUE 5 software allows using the terminal for labelling, parts counting, formulations, weighing records and transactions. All these applications work with E2R software thus providing a complete support of the weighing processes.

Easy Process of Creating Your Own Applications

PUE 5 operates on the basis of Windows 7 what makes working with various applications prepared by the customer a lot easier. The device is equipped with a set of programming components enabling cooperation of created applications with weighing modules.

Multiplatform Systems Management

PUE 5 terminal can support up to 4 load cell weighing platforms. To your benefit it features option of connecting laboratory balances and weighing modules.
